

Global Design & Practice for Pre-engineering

Pre-freshmen Engineering Students

Earn 2 credits for ENGR 195

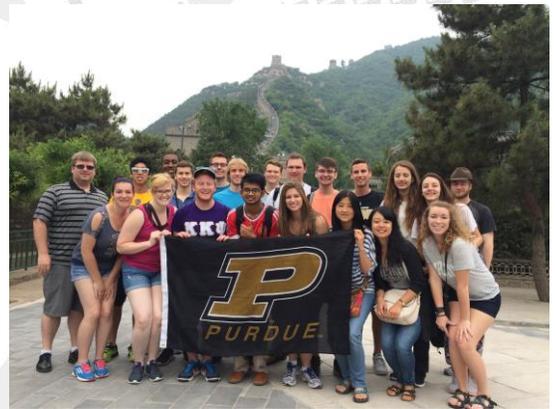

Dates: June 12-23 2017

Learn basic engineering design and practice from the perspectives of China and Japan. Develop a global mindset by experiencing the impact of globalization on consumer trends, product design, and workplace teamwork. Enjoy a great deal of cultural excursions and hands-on activities to develop inter cultural communications skills and bond with fellow Purdue students. Gain experiences that will set you apart from classmates and provide skills to aid in classes and professional settings!

For more information contact Wei Qiu at wei190@purdue.edu or Jill Churchill at churchil@purdue.edu.

- Beijing & Shanghai, China
- Osaka & Kyoto, Japan

EXPAND YOUR WORLD
GLOBAL ENGINEERING PROGRAMS

The Office of Global Engineering Programs forges international partnerships to connect Purdue students, faculty and alumni with opportunities for impact.
